PT. INOVATION HEALTHCARE INDONESIA

OUR VISION

Contribute to human well-being, make the world a better place.

OUR MISSION

Provide excellent products and services and promote them all over the world, taking care of people in need.

OUR VALUES

People-oriented: We value people, we care people, we respect people.

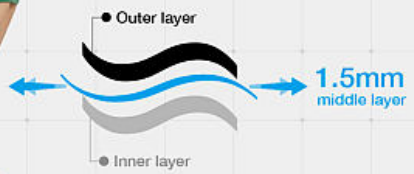

Integrity: We treat all people honestly, openly, morally and fairly.

Excellence: We strive to deliver the highest quality and value.

LITEFORT

We use secondary processing technology to make the thickness of the middle layer only 1.5mm, which is 40% thinner than the common 2.5mm thickness in the market.

Because the material is thin, it has excellent ductility and can provide good coverage without compression or discomfort. It's both supportive and flexible.

EB221

Adjustable Elbow Support with Adjustable Wrap

Material : Neoprene, Polyester, Nylon, Bamboo charcoal

Size : universal

- 1 Using 1.5mm NEOPRENE , which is lightweight and elasticity, provides both protection and comfort.
- 2 Two-way adjustable straps provide support and protection for the elbow joint.
- 3 Extra layer of assist cloth design, it is more convenient for self-wearing.

EB223

Tennis Elbow Brace with Gel Pad

Material : PU Form, Polyester, Nylon

Size : universal

- 1 Using 1.5mm NEOPRENE , which is lightweight and elasticity, provides both protection and comfort.
- 2 Inserts with a massage effect provide compression and reduce tension on the elbow.
- 3 Adjustable strap with return buckle provide appropriate compression and correctly positioned to the tendinitis of the elbow, effectively release Tennis/Golf elbow pain and discomfort.

WB221

Adjustable Wrist Support with Ergonomic Compression Support Wrap

Material : Neoprene, Polyester, Nylon, Bamboo charcoal

Size : universal

- 1 Using 1.5mm NEOPRENE , which is lightweight and elasticity, provides both protection and comfort.
- 2 Smaller and delicate design provides better mobility.
- 3 Ergonomic 3D tailoring design provides optimal comfort and fit .

WB222

Adjustable Wrist Support with Support Wrap

Material : Neoprene, Polyester, Nylon, Bamboo charcoal

Size : universal

- 1 Using 1.5mm NEOPRENE , which is lightweight and elasticity, provides both protection and comfort.
- 2 Additional reinforcement straps can be adjusted to optimal compression and comfort.
- 3 Smaller and delicate design provides better mobility.

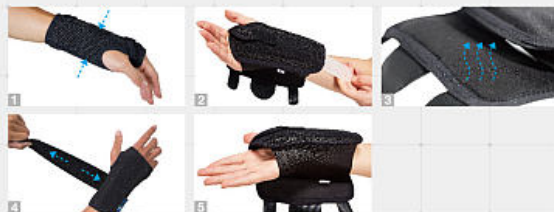

WS223

Adjustable Thumb Support with Splint

Material : Polyester, Nylon, Rubber, Spandex

Size : S / M

- 1 Ergonomic aluminum plate is comfortable to wear and effectively fixes inflamed tendons.
- 2 Two fixation straps, one to make the aluminum plate fit the thumb and wrist, the other makes the thumb tightly fixed with the correct angle, effectively protecting the inflamed part. In addition, you can also adjust the compression to the most comfortable level according to your needs, effectively and stably protecting the wrist joint.
- 3 Outer material is using sandwich material, which is more breathable and comfortable. And the inner layer is made of soft cloth material, which provides optimum comfort to the hands.
- 4 Smaller and delicate design provides better mobility.
- 5 Extra layer of assist cloth design, it is more convenient for self-wearing

WS224

Adjustable Wrist Brace

Material : Polyester, Nylon, Rubber, Spandex

Size : S / M / L

- 1 There are support plates on the upper and lower sides, which can effectively limit the angle of the wrist and prevent the compression of the carpal tunnel nerve. It is also suitable for patients who need to limit the movement of the wrist or patients with wrist fractures.
- 2 Suitable for both left and right hands, the elastic support plate can be replaced. Covering but not restrictive, comfortable to wear and still allows for some light activities.
- 3 The inner layer is made of soft cloth material, which provides optimum comfort and protection to the injured and uncomfortable hands. And the outer material is made of sandwich mesh material, which is more breathable and comfortable to wear, suitable for wearing for a long time when sleeping or resting.
- 4 The reinforcement straps design can make the splint fit the palm of the hand and the back of the hand, so that the wrist can be fixed at the correct angle, protect the inflamed part. In addition, you can also adjust the compression to the most comfortable level according to your needs, effectively and stably protecting the wrist joint.
- 5 Extra layer of assist cloth design, it is more convenient for self-wearing.

KP420

Hinged Knee Brace

Material : Polyester, Spandex, Nylon, Polyvinyl chloride, Neoprene, Metal

SIZE : S / M / L / XL

- 1 Double aluminum hinges on both sides of the knee provide a high level of support and protection, and greatly reduce the pressure on the knee.
- 2 Two-way velcro fasteners provide support and protection for the patella.
- 3 Extra adjustable straps provide controlled compression for a custom fit.
- 4 Outer material is using sandwich material, which is more breathable and comfortable. And the inner layer is made of soft cloth material, which provides optimum comfort to the knee.

PT. INNOVATION HEALTHCARE INDONESIA

DR.CARE

Patented 3D Knitting technology provides more breathable, comfortable, and flexible. Besides, the Lycra fabric provides elasticity, flexibility, perfect fit and comfortable. In addition, the unique formula yarn contains multiple functions, such as Anti-bacteria, Far-Infrared, Bamboo Charcoal and other functions.

KD322

Dr. Care Pro Knee Support with Gel Pad

Material : Polyester, Lycra Spandex, Nylon

SIZE : S / M / L / XL

- 1** Gel pad on patella provide support and protection for the patella, prevent improper tracking of the patella especially irregular movement of the patella during intense exercise.
- 2** Patented side stays, Feel comfortable and feel free of object, not easy to slip off, not afraid of bending. Will not rust after washing, provides good support, protection and comfort
- 3** Patented 3D Knitting provides Breathable, comfortable, and flexible. And the Lycra fabric provides elasticity, flexibility, perfect fit and comfortable. Besides, the fabric also contains multiple functions, such as Anti-bacteria, Far-Infrared, Bamboo Charcoal.
- 4** Comfortable top and bottom provides proper compression to maintain good blood circulation

ED320

Dr. Care Elbow Support

Material : Polyester, Nylon,
Lycra Spandex
Size : S / L

- 1 Patented 3D Knitting provides breathable, comfortable, and flexible. And the Lycra fabric provides elasticity, flexibility, perfect fit and comfortable. Besides, the fabric also contains multiple functions, such as Anti-bacteria, Far-Infrared, Bamboo Charcoal.
- 2 Comfortable top and bottom provides proper compression to maintain good blood circulation.

WD320

Dr. Care Wrist Support

Material : Polyester, Lycra Spandex, Nylon
Size : S / L

- 1 Patented 3D Knitting provides breathable, comfortable, and flexible. And the Lycra fabric provides elasticity, flexibility, perfect fit and comfortable. Besides, the fabric also contains multiple functions, such as Anti-bacteria, Far-Infrared, Bamboo Charcoal.
- 2 Comfortable top and bottom provides proper compression to maintain good blood circulation. And the inner layer uses sweat-absorbing material to increase sweat absorption.

AD320

Dr. Care Ankle Support

Material : Polyester, Nylon,
Lycra Spandex
Size : S / L

- 1 Patented 3D Knitting provides Breathable, comfortable, and flexible. And the Lycra fabric provides elasticity, flexibility, perfect fit and comfortable. Besides, the fabric also contains multiple functions, such as Anti-bacteria, Far-Infrared, Bamboo Charcoal.
- 2 Comfortable top and bottom provides proper compression to maintain good blood circulation
- 3 Heel part is thickened, anti-wear design, not easy to wear and increase product life.

4-WAY ELASTIC

4-Ways stretching fabric made from several combination of fabric which naturally stretch in every direction to follow muscle and joint movement.

KB120

4-way Elastic Knee Support

Material : Latex, Nylon, Bamboo charcoal yarn, Spandex

SIZE : S / M / L / XL

EB120

4-way Elastic Elbow Support

Material : Latex, Nylon, Bamboo charcoal yarn, Spandex

SIZE : S / M / L / XL

AB120

4-way Elastic Ankle Support

Material : Latex, Nylon, Bamboo charcoal yarn, Spandex

SIZE : S / M / L / XL

WB120

4-way Elastic Wrist Support

Material : Latex, Nylon, Bamboo charcoal yarn, Spandex

SIZE : S / M / L / XL

WRIST SUPPORTS

ELBOW SUPPORTS

WB221 Adjustable Wrist Support with Ergonomic Compression Support Wrap
Neoprene, Polyester, Nylon, Bamboo charcoal
Size : universal

WB222 Adjustable Wrist Support with Support Wrap
Neoprene, Polyester, Nylon, Bamboo charcoal
Size : universal

GUARDFORT

PT. INOVATION HEALTHCARE INDONESIA

WH250

Wrist Brace with splint stabilizer

Material : PC, Nylon , EVA, Spandex

Size : Left / Right

- 1 The upper and lower splints are removable, easy to wear, remove and clean. Solve the problem that the coated plaster cannot be disassembled and cleaned. It is convenient to use while minor fracture or post-surgery. It protects the wrist without affecting daily life.
- 2 The ergonomic splint and shock-absorbing foam, support and protect the wrist without pressing the affected area, providing a more comfortable wearing experience.
- 3 The upper and lower splints and the foam of the inner lining are designed with full ventilation holes, which is different from the stuffy and uncomfortable feeling when wearing plaster, and can be breathable and comfortable even if worn for a long time.

The ergonomically designed support plate and cutting for an excellent fit, providing good support and coverage without compression and discomfort. It is suitable for use when the affected part needs to rest and recover after injury.
